THE WHOLESALE BROCHURE

WWW.WILDSWAN.ONLINE

about us.

Wild Swan is a British brand created by myself, Jess, a Sheffield-based artist. Inspired by plant power and the Peak District (where I live), I create quality natural British botanical well-being products that are kind to our skin, soothe and nourish us, while also helping us to make our well-being a priority.

what we use.

Pure essential oils are key ingredient in most of our products. Essential oils possess a complex array of vitamins, minerals, and antioxidants, and when correctly blended they can be incredibly beneficial to us in many ways. As well as nourishing oils & butters.

We have specially created blends to help you to unwind, relax, sleep better, concentrate, feel inspired, less anxious, and more.

our mission.

We live in difficult times where we seem to be constantly on the go. Down time and time to unwind is important for us all. We supply natural mood-boosting botanical remedies, home fragrances, and lovely skincare, to help you embrace self-love & self-care.

our vision.

At Wild Swan we want to help you to take a moment throughout the day to: unwind, focus, breathe, feel good and/or zen-out. We want to make well-being accessible to all. We believe everyone should be able to enjoy a beautiful scented candle, without irritations and without inhaling toxins. All of our collections are made from a combination of natural, organic and sustainably sourced ingredients, designed to benefit your skin, senses and well-being.
