THE WHOLESALE BROCHURE

WWW.WILDSWAN.ONLINE

about us.

Wild Swan is a British brand created by myself, Jess, a Sheffield-based artist, and my lovely Mum Lesley. Inspired by the Peak District (where we live), we create quality natural British botanical wellbeing products that are kind to our skin, soothe and nourish us, while also helping us to make our wellbeing a priority.

what we use.

Pure essential oils are key ingredient in all of our products. Essential oils possess a complex array of vitamins, minerals, and antioxidants, and when correctly blended they can be incredibly beneficial to us in many ways.

We have essential oil blends gently created especially to help you to unwind, relax, sleep better, concentrate, feel inspired, less anxious, and more.

our mission.

We live in difficult times where we seem to be constantly on the go. Down time and time to unwind is important for us all. We supply natural wellbeing gifts which are lovingly and thoughtfully hand crafted (by us), to help encourage you find moments of calm, and enhance your wellbeing.

our vision.

At Wild Swan we want to make wellbeing accessible to all. We believe everyone should be able to enjoy a beautiful scented candle, without irritations and/or inhaling toxins. Products containing only the most purest and natural ingredients, (which we inhale and use on the skin), should be made more accessible.

- The Wild Swans

We strongly believe in sustainable living . We try our best to help the planet by using minimal packaging, recycling, and making sure all our lines can either be recycled or reused.

**made in
sheffield,
england, in
small batches**

All of our ingredients are locally sourced and we use only the highest grade pure essential oils, and high quality eco soy wax for our candles.
